IN LOVE WITH YOU

A father in love with his wife, turned to me for a gift from Saint Valentine that really left him speechless. After so many sketches and projects we have come to the creation of a music box that focuses on the love of their family, warm and powerful like the fire of a balloon.

JOY

Clenched in the hands of one's parents a child flies high smiling. Designed and made for a Turin family to celebrate the arrival of their first child.

THE BIG WHEEL

Imagine to be in a city that you would like to visit, embark on a cabin, turn the handle and you will hear a melody. Thus your imagination will set off. Like when you were going on the big wheel as a child, by magic you will feel like seeing the whole city from above!

THE LIGHTHOUSE

Another article that represents my Sicilianism, dedicated to the coasts keepers, from Augusta to Favignana, passing from Lampedusa and then moving to San Vito lo Capo, hiking up to the top of Strombolicchio to the Montorsoli Beacon, visible to those coming from the continent. My lighthouse, with its essential shapes, represents them all and has become one of the most captivating items in my production.

AIRPLANE

Each person admired the flight of an airplane, built it with a sheet of paper, followed its wake drawn in the sky and was thrilled the first time she got on board ... this carillon wants to be a wish for freedom and lightness on the part of an aunt from Trento for her nephew.

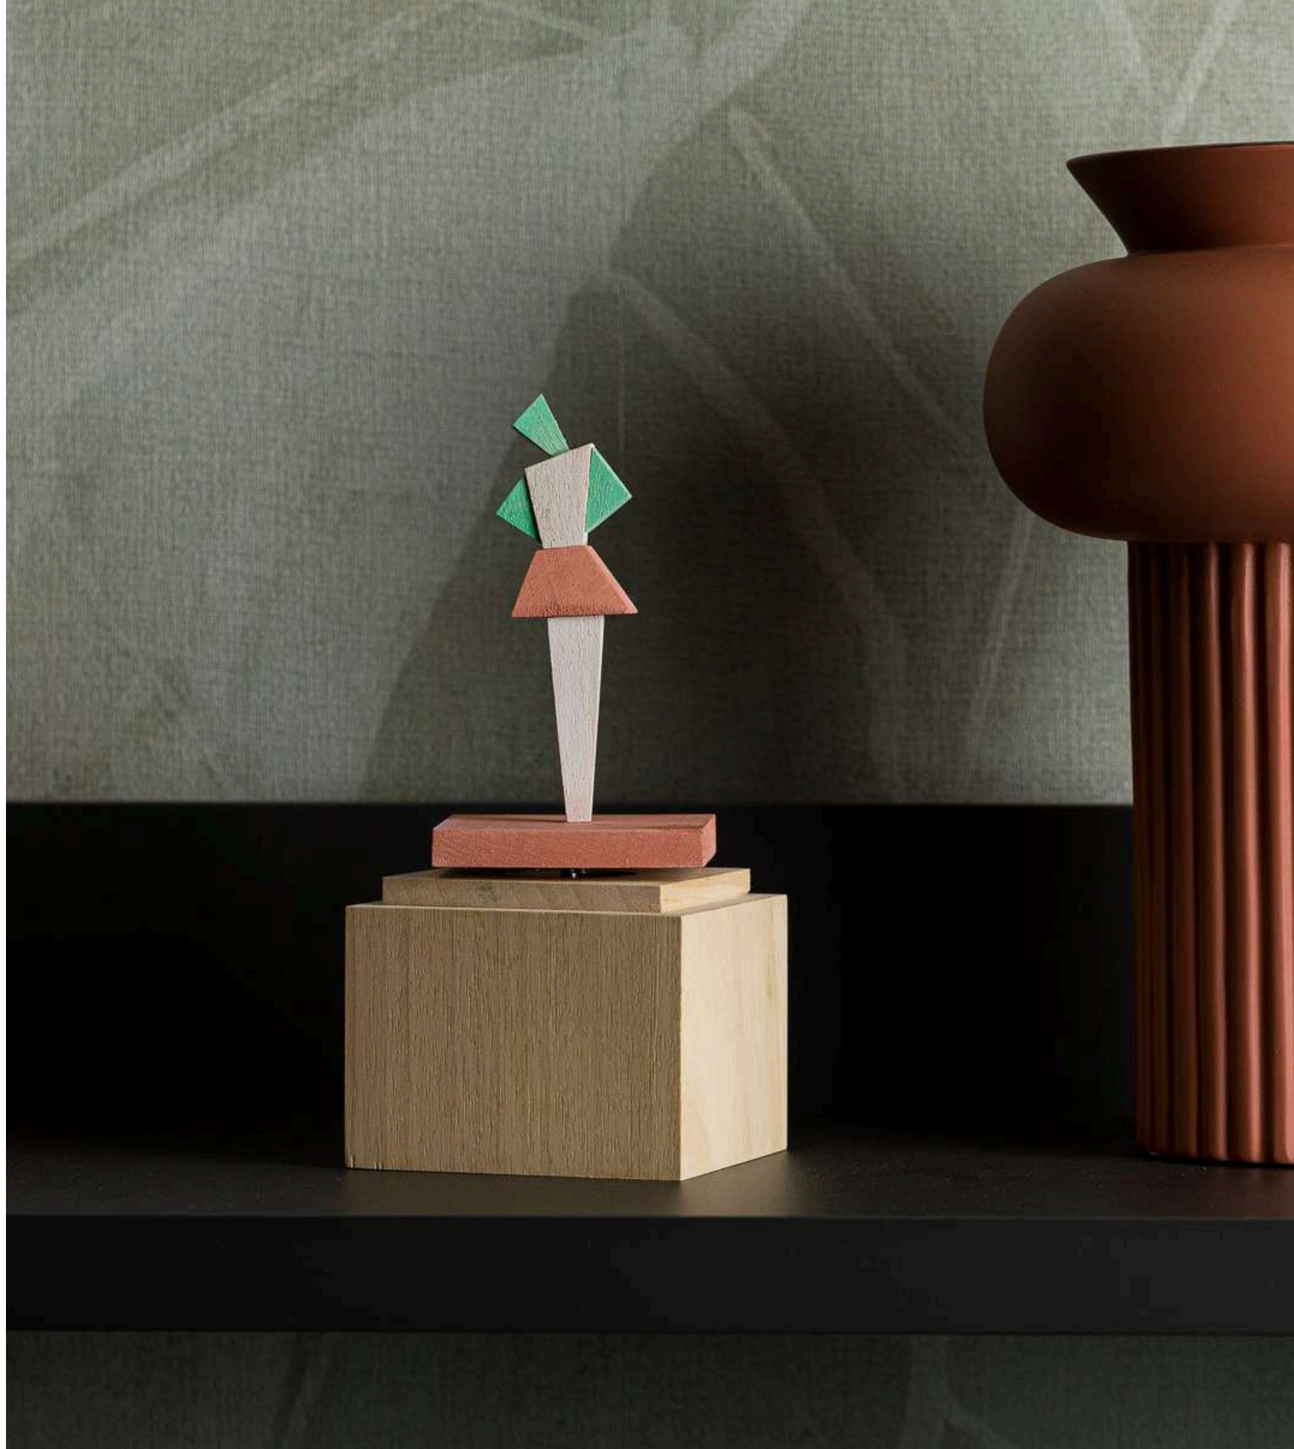
BALLERINA

First position represents the beginning for every ballet dancer. This music box has been the first of my works. The first creation couldn’t be anything else but the music box par excellence: the ballerina!



01. musicbox

FLAMINGO

The unmistakable position with a raised paw made it one of the most famous and well-known birds of the Animal Kingdom.

TO PHOTO-GRAPH

Created for a photographer, this music box depicts her main instrument, a vintage camera: “the camera is a sort of professor: it teaches me to understand the world, to see how things come together. It teaches me to remember the past because it makes me look back. I obey from time to time, but not always. It’s like a person”. Arno Rafael Minkkinen

THE CIRCLE OF LIFE

The figure next to whom could be that of an elderly man who remembers his childhood, of a parent who imagines the fun of his son to offer a ride or of a child enchanted by flying chairs. The carousel therefore becomes a metaphor for life in relation to which wonder must always be maintained.

VINYL

The vinyl record was introduced in 1948 by Columbia records in the United States as an evolution of the previous 78-rpm album, similar in features, made of shellac.

ON THE SEA

This music box has been designed for a skipper from Capo d'Orlando, who wanted an object for the nephew which recalled his land. I played therefore with shapes and colours in order to create a lighthouse out of wood: the beach and the boats floating on the intense blue of Sicilian Sea.

COLOURMOTIVE

A father wanted to give his son a music box, but the boy was crazy about toy trains. It seemed to him to have made an irreconcilable request, nevertheless playing with geometrical shapes, I managed to create a little stylised train full of colours. I only ask the customer to express his wish, then it is up to me to give it a shape!

THE MOON

Can a customer ask me for the moon? Of course yes! That's what a family did, who asked me to represent their son as he tries to get closer to the moon. It turned out this very romantic and dreamlike music box.

CRECHE

My grandfather started his handcraft activity by producing Christmas characters in clay. Today I propose this music box based on the nativity scene, which represents a line of continuity across the generations.

ACTION, WE’RE ROLLING

The first film shot is believed to be Man Walking Around a Corner, a 3-second short film, made on August 18, 1887 by Louis Aimé Augustin Le Prince. This music box was made for a Turin director asking me to represent his passion ...

01. musicbox

FAMILY FORMS

Carillon requested by a Sicilian architect who wished to express the union of his family. The geometric shape that immediately occurred to me was the circumference, because in it every point is firm, as in a family embrace, you tighten hard and keep close to the heart.

A SUMMER BY THE SEA

"...Feel like rowing, bathing off shore to see the beach umbrellas from afar", used to sing Giuni Russo in the early eighties. These same images came into my mind when a Dutch family requested me a music box as a souvenir of their summer spent in Sicily.

JOURNEY ON THR FIELDS

Who did not have fun as a child playing with a tractor? I still do it today: just a circle, a rectangle and a square ... and you're done!

01. musicbox

DUMBO

In the days when the reimagining of Dumbo was being released in the movie theatres, a family from Lecce ordered me a party favour to celebrate their daughter's birth. The baby elephant recalls the tenderness of a new life.

01. musicbox

HEIDIHAUS

Who among us has never dreamt as a child of spending a carefree day with Heidi and Peter? This music box is a tribute to Johanna Spyri's novel, published in 1880 and translated in more than 52 languages, which became famous with the Japanese cart.

FROM FATHER TO SON

Piano Battaglia, a mountain resort on the Madonie reminds me of excursions I used yo do with my family when I was a child and now, after so many years, it is wonderful to take my son. Generations follow one another, but some places remain unaltered over time. A fir tree and a house like those of that wonderful place symbolize family and the cycles of nature and life.

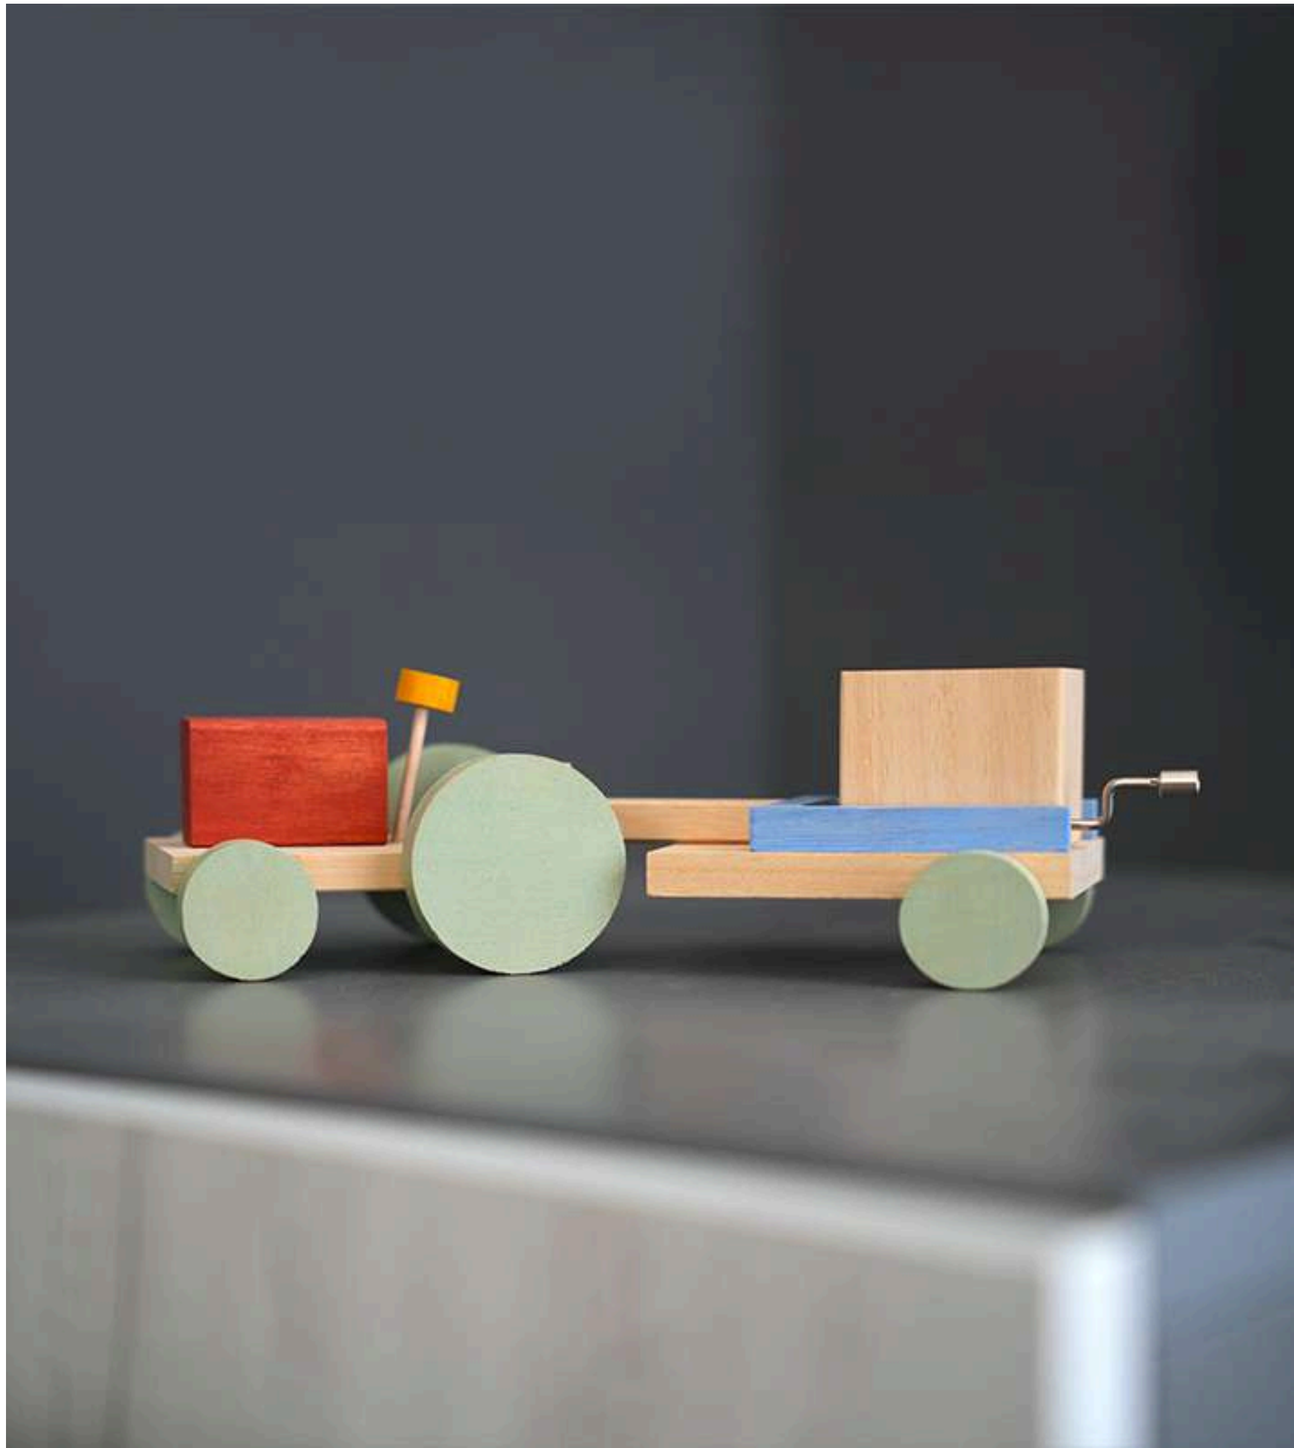
IMAGINATION

This music box was manufactured for a jewelry designer, as gift for her little nephew. The request was that of a composition of shapes and colours to depict a tractor in a minimal style. You can see the result in the pictures... judge yourselves!



01. musicbox

KITTY CAT

A tender, affectionate kitty which loves cuddles, playful and able to fill silences with its melody.

01. musicbox

THE NATIVITY

Christmas music box designed and created for a collector from Agrigento who loves the Nativity. I wanted to personalise this important iconographic theme by simplifying and synthesizing the symbolism of the Holy Family at the outmost, yet still keeping his great significance.

01. musicbox

PINOCCHIO

The collection of my music boxes was missing a classic like pinocchio and then a bit like Mastro Geppetto I worked the wood and a nice puppet came out that doesn't speak but plays!

01. musicbox

LUNAR HAMMOCK

Reach the moon with your own person and enjoy the stellar panorama with a romantic musical background!

01. musicbox

THE HOT-AIR BALOON

girl wished something unique for her friends, a music box that recalled freedom... Who hasn't dreamt to fly and to do it together with beloved people? I imagined them on a hot-air balloon, weightless and timeless, like if they were hanging on the sky, in the world where birds plunge their wings into the clouds.

THE TIME MACHINE

Some people see an historic car, others see a modern MPV, I only put together squares and circles to shape a toy car to the delight of children. I still remember my favourite toy car, the one I used to play with as a child. I hope this one could become as unforgettable for someone!

TOO GOOD TO BE TRUE

The arrival of a firstborn in a family changes the scene of everyday life. From the day of delivery, all eyes and attentions are turned to the new-born: a wonderful creature that is at the centre of the couple's world! This is what I have been told by the young parents when they were imagining their music box. And that's how the baby buggy becomes the main subject, attracting everyone's eyes, especially those of the parents on the background.

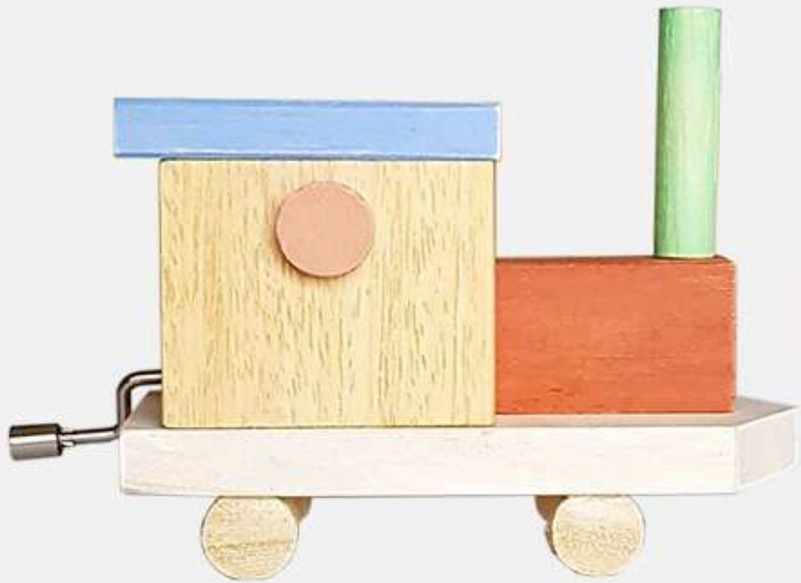
WE INFORM ALL PASSENGERS

Birth may be fantasized in so many ways. I like to think that an imaginary train could bring a new life and make parents and relatives happy. That’s why little trains are the subjects for party favours that I prefer to realize.



01. musicbox

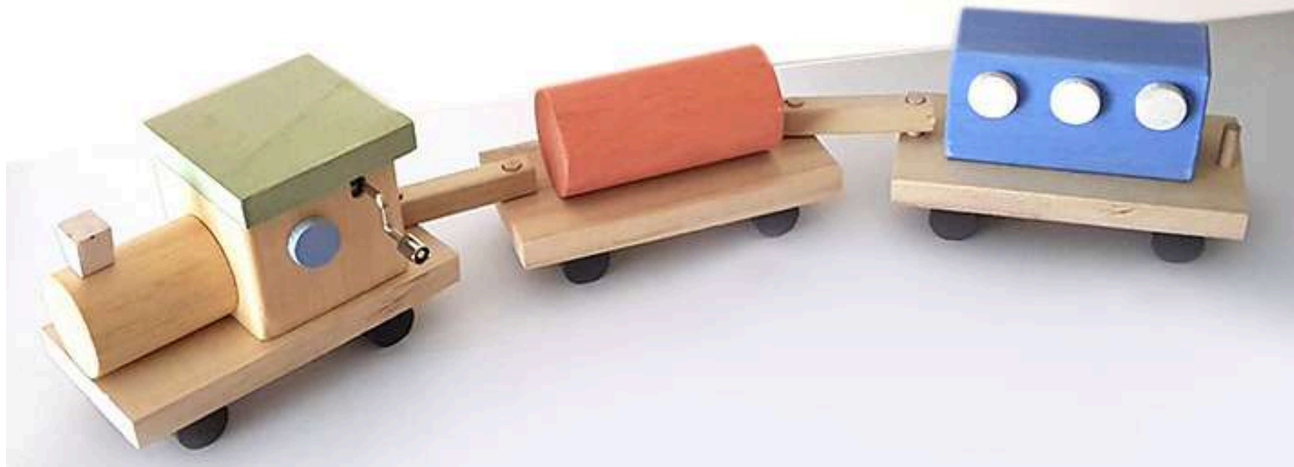
TOUCH

There are important goals, like the achievement of an academic degree, which must be celebrated with rituals and symbols so as to fix them in people's lives. I created this party favour for my life partner's medical degree. The same person who encouraged me with her usual energy and positivity to focus my creativity on music boxes. In both cases it is a matter of touch: hers!

01. musicbox

TRENONNO

Carillon created for a gift from an Italian grandfather to his grandson in Germany. It could only be a game and the same time something that covered the distances: a train full of affection, as only grandparents can give!



01. musicbox

VROOM VROOM

Which child hasn’t dreamt of driving a truck? I remember that, when I was a child, I used to spend hours and hours playing with my little truck and in my fantasy I would load it, unload it and drive it for real. This music box, made with the most regular and pure shapes that exist – rectangle and circle – brings me back to those happily endless hours.

ENCHANTMENT

Il is difficult to put into words that wonderful feeling of enchantment and incredulity that one feels when watching at his newborn baby. I have tried to do it with my music box Enchantment, created for a couple of new parents from New York. Mom and Dad hold each other's hands, united and filled with tenderness, they contemplate that little creature in silence almost holding their breath, a single thought: "Because you are there. You really are there".

FOURTH OF MOON

... full of your dreams This music box is the aunt's gift for her granddaughter: a quarter moon to fill with the little girl's dreams!

AMADEUS

In 2019 I was invited to the Broadcast “Usual Unknowns”, host of Amadeus. I chose to reproduce a pink flamingo, an animal with an elegant bearing, so that it was a welcome gift for the wife of the presenter, an established dancer.

UP

I reviewed the animated film UP and stopped to look at Carl and Ellie's house: it seems to be made of wood! Hence the idea of rebuilding it on the rotating base of one of my music boxes, held suspended between sky and earth by colored balloons and floating notes!

MOUNTAIN LINES

I’ve always liked the mountain with its nature and its panoramas made of peaks, peaks and bell towers.

SWING

Carillon made for an artist as a gift for the two granddaughters. He wanted them to be represented together in a moment of joy. On the swing you experience the adrenaline of the momentum but you are reassured by the presence of our playmate next door.

01. musicbox

SOLAR ROTATION

Will the sun go around the lighthouse or the other way around? Follow the musical notes that become rays and illuminate the lighthouse, thus giving life to a summer dance.

MUSICAL PETALS

There are those who ask a daisy if a love is reciprocated, I instead asked a flower to play... here is the carillon_quadro: Musical Petals! Musical Petals quantity.

THE MAN IN TAILCOAT

“It’s midnight, the noises are dying down, even the sign of that last café is going out”.
To create this carillon-picture I was inspired by the famous song by Domenico Modugno where silence frames the night streets of the city...

FREE TO GROW

“Do not teach children but cultivate your heart and mind yourself, always stay close to them trust in love the rest is nothing"

Giorgio Gaber
